

Nothing Like Your Usual Math Club!

Bedtime Math presents Crazy 8s, an after-school program to help schools, public libraries, and 501(c)3 organizations launch recreational math clubs. We offer 24 weeks of activities packaged in three 8-week kits for Grades K-2 and 3-5. Unlike competitive clubs that appeal to a select few, our activities can appeal to any kid. With activities like Glow-in-the-Dark Geometry and Beach Ball Party, we're making math club the cool thing to do after school!

Our goal with Crazy 8s is nothing short of overhauling our country's culture around math. While many Americans dislike or even fear math, we hope to raise a next generation who loves numbers.

Here's how Crazy 8s fulfills that mission:

- ★ It's **collaborative**: The activities get kids **working together**, building together, running and jumping together, so they can **bond over math** in a whole new way.
- ★ It's **hands-on**: Our **lively get-up-and-move activities** explore the math behind kids' favorite things, like treasure hunts, card games, puzzles – even secret codes!
- ★ It's **proven**: A study by Johns Hopkins University found Crazy 8s **reduced kids' math anxiety after only 8 weeks in the club**. We hear from many of our teacher coaches that students participate more in the classroom because of Crazy 8s.

**Celebrating 10 years of over-the-top math fun
enjoyed by more than 300,000 kids nationwide.**

Cost-Sharing Contribution

As part of our charitable mission, Bedtime Math subsidizes the overall cost of each Crazy 8s club, valued at more than \$400. Crazy 8s kits are available for a **contribution of \$128 for the first kit of each Season**. That's \$1 per kid, per week. If your organization hosts multiple clubs per week, **additional kits of the same Season are just \$88 per kit**. Coaches who want to commit to 16 or 24 weeks upfront will receive a **bundled discount** of \$198 for the first kit of two and \$258 for the first kit of three Seasons. Federal Title 1 and Title IV funding can be used for this educational resource.

Kit Contents

Our Crazy 8s kits are filled with most of the materials needed to run a club, along with math-y take-home items for the kids. Coaches will need to provide a few supplies, like scrap paper, a pair of scissors, and a roll of masking tape. To help make the club the best it can be, our online Coaches' Area includes step-by-step directions, how-to videos and other resources for our weekly activities.

Honor Code

All Crazy 8s partners must submit an online application, which will be finalized during a brief phone call with one of our Crazy 8s Ambassadors. During this call, we'll review our Crazy 8s Honor Code:

- Clubs must meet on a **weekly schedule either before or after school**. The program works best when clubs meet once a week for 8 consecutive weeks. We'll also allow clubs to meet twice weekly or daily for a 1-week school break camp.
- Each club should include at least 12 kids, but **no more than 16 kids**.
- Kids must be **grouped Grades K-2, Grades 1-3 or Grades 3-5**. Clubs can be restricted to a single grade or a pair of grades within those three grade ranges, but they should not be expanded in any way.
